

# Cat5

CLIENT  
Canadian Test Centre

ROLE  
Wireframing, design and art direction, prototyping,  
content upload and project management

## OVERVIEW

The fifth edition of the Canadian Achievement Test (Cat5) is the first web-based edition. This means that Cat5 is administered online using tablets or computers and teachers can create, manage, update assessments through the Teacher Dashboard.

Teachers can download reports as soon as students complete a subtest.
